 Nena Hidalgo

I have been teaching my 7 year old niece, walking my dog and learning the ukulele.. Oh yes, also studying mixology. Today I fixed myself a White Russian. Stay safe and hope to see you all soon.

Elvia Rivero: "I am enjoying doing gardening."

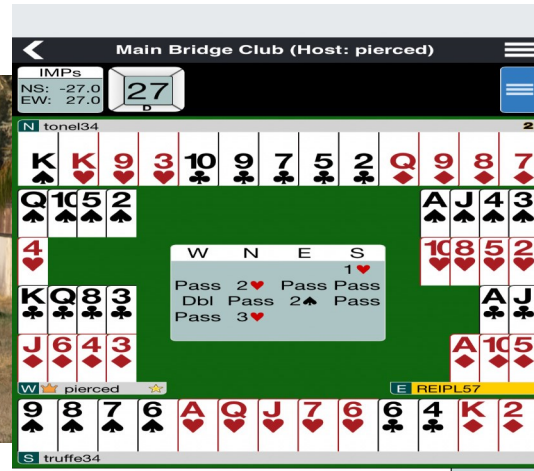

Guy De Mangeon's new look?

I have actually been spending every single day since the quarantine out front of my house for two hours. People stop by and say hi, to me and my two dogs here's a picture for you. It has become quite the thing in the neighborhood!! I always eat my lunch out there and drink my tea. *Mary Alsip*

In response to request for pictures of what I am doing. I walk about 2.5 miles on the bike path, following women jogging when I can (see photo) and I am playing bridge on line (see other photo). Otherwise I go out of the house rarely to help Pat with the shopping and to pick up take out meals at our favorite restaurants to help them tide over this shutdown (See take out dinner from Chuck's Steakhouse). *Terry Straehley*

Here are photos of John Otchis & I (Aileen Chambers), & Zoey (the Dog) from Cinco de Mayo celebration at Twin Coyotes Winery in Cambria in 2019. All there at the winery tasting room had a great Cinco de Mayo. We all wore mustaches!

As you know, Margaret has been making masks for rest homes and medical professionals. I was impressed by her dedicated work, **so** I donated some fabric from Toba, Japan. This fabric is from the Sumo Wrestler's summer Kimono. Because Sumo Wrestlers are so big, it will make about 100 masks from this fabric.

I have been keeping busy with teaching remotely, via Zoom, K-3rd graders from Peabody Charter School. I have also been cooking and baking more new recipes and weeding in the yard (never ends). I am attaching a photo of one of my dessert creations: "Avocado/Chocolate Mousse with honey - topped with Coconut Cream and Pistachio nuts." (No sugar Added!) Jill Stassinis
